Fidespread Damage to Country Bridges by the Storm-Professor Simpson Stricken With Paralysis,

RALEIGH, N. C., September 16.-The State Commissioner of Agriculture The State Commissioner of Agriculture says to-day that the damage to cotten by the storms and rains is now 25 per cent. He declares this to be a conservative estimate. He says a great number of estimate. He says a great number of small bolls are killed, and that what is known as the top crop will be light. The state Weather Bureau to-day received instructions from Washington to announce the state prison to expect the state of the state prison not to exceed ten years and a fine of \$2,000, or both.

small boils are killed, and that what is known as the top crop will be light. The Btate Weather Bureau to-day received instructions from Washington to announce anticipated marked rises of rivers.

There appears to be a belief that cotton will go to 2 cents a pound in a little while. It is now certain that the crop is short. There is no foundation for a current rumor that North Carolina growers propose to hold their cotton in accordance with an organized plan.

Twelve million cigareties are ordered by one factory at Durham, by its representative in Japan.

RRIDGES SWEPT.

The effect of the disastrous floods of the last few days is shown by the statement that only five bridges are left in Durham that only five bridges are left in Durham county. Many counties will be put to heavy expense and a great number of people cannot get to their county towns. Mr. John Singson for years a professor of music in the blind department of the offense and blind institution here, was last night stricken with paralysis, and last night stricken with paralysis, and is in a critical condition. He is blind and is in a critical condition. He is blind and is a particularly talented musician.

CHRISTIAN COLLEGE OPENED.

Address by Ex-Governor Jarvis Success of the College-Personal and Social.

The Christian College at Ayden, this coun-Professor L. T. Rightsell, late of Indiana, in charse as principal. Quite a number of people assembled in the grove around the college building and listened to an admirable address by ex-Governor T. J. Jarvis, of this town. The country has no more earnest advocate of education than this distinguished gentleman. During his six years' administration, there was greater advancement of educational interests in the State than had marked any previous decade in our history. He believes in the education of the masses, and says he wants to see the time come when says he

This college at Ayden is an evidence of what enterprise and determination can accomplish. It is established under the auspices of the Clastian (or Disciple) denomination. Early this year they began discussing the advisability of establishing a denominational school. In April, they

WELDON, N. C., September 16.-The NEW AND ELEGANT STEAMER POCAHONTAS which was left by the freshet of the 2nd instant has been swept away to-day. At the pentientiary farms the damage is very heavy. It is impossible to estimate the loss to the State. It is also reported here that the Caledonia State farms arounder water. They escaped the last freshet. The water bounded over the dikes and some of the best fields aroruned. They cannot stand heavy rises in the river like the present freshet. Farmers here have been busy to-day saving what corn they could in boats.

The railroad bridge is above high water and is safe. The river farmers are gloomy over the present outlook.
